

Thorough Introduction to NVivo 12 Pro for Windows and Mac Training -1 Day Event

NVivo - Manage, Structure, Code, Analyse, Report

Introduction

Start your qualitative project with our 1-day hands-on, workshop. This course is designed for the **complete beginner** as well as those who **have used previous versions** of the software or **are self-taught** and want to upgrade their skill.

Target audience

- Post Graduate Researcher undertaking PhD study or Masters.
- Early Career Researcher new to research, on their first teaching & research post or an independent researcher.
- Mid-Career Researcher building reputation and esteem to help establish influence and leadership.
- Expert Researcher or Research Leader, influencing research strategy and mentoring researchers of the future.

Pre-requisite

No previous knowledge of NVivo is required.

Course Outline

Day 1: Explore NVivo and Create a New Project

Morning Session you will learn to:

1. Explore the functionalities of NVivo.
2. Create a practice project and set up folders for your data.
3. Import interview transcripts into the practice project.

4. Learn to code a transcript into both “open-codes” and “thematic coding framework”.
5. Annotate your coding, attach coding summaries in memos to transcripts and nodes.
6. Create memos for field notes, reflective notes, and supervision meeting records.

Afternoon Session you will learn to:

1. Setup the scaffolding of your own project.
2. Import transcripts and code it into both open codes and thematic coding framework.
3. Create memos and annotate your coding.
4. Organise your growing open-codes into thematic coding structure by clustering them using colour.
5. Examine your coding using Coding Stripes, highlights.
6. Learn to use coding and matrix queries.

Teaching Methods

The teaching method is mainly hands-on. It is supported by presentation, demonstration, encourage reflection, discussions, questions and answers.

The tutor will go around to examine each participant’s project on their coding, node structure, and classification to provide suggestions, corrections and efficiency tips.

This will ensure that your coding and node structure will support in-depth data analysis.

Training Workbook

Each participant receives an instructional workbook to work through and keep.

Training Reminders

- Practice interview data files are provided for those who have not collected data as yet. [Download it here.](#)
- Bring any interview transcripts you may have to work on.
- If you do not have NVivo installed on your laptop, you can download a 14-days FREE trial copy [from this link.](#)

Certificate of Completion

Each participant receives a certificate of completion.

After Training Support

All participants receive an ongoing after training support by phone, email and [Friday mornings 10-11am UK time webinar support.](#)
